

KEO SOPHARANITH

FULL STACK DEVELOPER · CYBERSECURITY · IT ENGINEERING STUDENT

GitHub · github.com/Meiiliiii

Email · ranith9876@gmail.com

PROFILE

Information Technology Engineering student at the Royal University of Phnom Penh focused on full stack web development, practical application design and security-minded engineering. Comfortable learning across frontend, backend fundamentals, databases, version control and cybersecurity research.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, responsive UI **Backend:** Java, REST API fundamentals, application logic
Data: SQL & data modeling **Security:** Ghidra, YARA, PE analysis, MITRE ATT&CK; **Workflow:** Git, GitHub, UML, technical documentation

SELECTED PROJECTS

Jomney Pet Food

Full stack development / e-commerce — Responsive shopping experience for dog and cat food with product presentation and interactive UI.

Dental Clinic System

Full stack development / academic — Clinic-management application demonstrating structured workflows and practical system design.

Windows Installer — Static Malware Analysis

Cybersecurity — Static PE32 investigation using objdump, strings, entropy analysis, Authenticode parsing and defensive YARA authoring.

Mobile Application — Reverse Engineering

Reverse engineering — Ghidra-based static analysis covering control flow, decompiled functions, file handling and data-flow reasoning.

EXPERIENCE

IT Support, Assistant & English Translator · Private Dental Clinic · 2025—Present

Provide day-to-day IT support alongside administrative operations; communicate with patients; translate Khmer and English; assist with scheduling and records.

Communication & Teamwork · Academic / Volunteer

Lead group assignments, develop presentation and public-speaking skills, volunteer in educational activities and support others through clear communication.

EDUCATION & TRAINING

Bachelor of Information Technology Engineering · Royal University of Phnom Penh · 2024—Present

UML — Unified Modeling Language (Mind Luster, 2026) · OOPs in Java (Simplilearn SkillUp, 2026) · Additional cybersecurity practice

LANGUAGES

Khmer — Native · English — Intermediate · Chinese — HSK 3
